

Physics Seminar

Wednesday 10/3/2007, 4:30 pm
Science & Engineering Building Auditorium

Matthew J. Marone

Department of Physics
Mercer University

Spotlight on the Astronomy Club at Mercer

Few people know that Mercer has recently started an Astronomy club. I will discuss the club and some of our student projects. For example, our students are working on building their own 8" Dobsonian telescope. We also plan to take part in NASA's Lunar impact Monitoring Program. I will display some of our recent equipment acquisitions and discuss our observing site. Weather permitting, we plan an observation session this Saturday evening (Sept 29).

Please join us for light refreshments at 4:15pm outside SEB 203.
